

COVID-19 Vaccination Policies

Highland Baptist Christian School does not have a policy that requires vaccinations for students or staff. Students and staff who are vaccinated are not required to quarantine after direct known exposure.

Parent & Employee Protocols and Screening Overview

Parents of students and employees are encouraged to self monitor for symptoms of COVID-19 prior to arrival on campus. Individuals with a temperature should not report to school or work. Individuals must stay home, inform the school and it's recommended that you notify their healthcare provider if he/she has fever and/or have two or more of the following symptoms: fever (100.4 or higher), shortness of breath, chest pain, cough, body aches or fatigue, GI symptoms (nausea, diarrhea), loss of taste, loss of smell, and other flu or cold like symptoms such as headache, sore throat, or congestion. An individual **must** stay home if he/she is experiencing COVID-like symptoms (fever and/or any two or more COVID-19 symptoms). Students will be adequately supervised until the student is picked up. It will be the responsibility of the parent/guardian to promptly pick up the student from school.

Requirements to return to school/work for symptomatic or COVID-19 positive individuals:

1. 5 days after symptom onset. OR 5 days after testing positive if you have no symptoms. Day 6-10 return to school or work wearing a mask. If an individual cannot ensure masking for 5 days, then in that case, the individual should isolate for the full 10 days.
2. 24 hours fever-free without use of fever-reducing meds

AND

3. Significant improvement of symptoms

OR

4. A written letter from Healthcare Provider with an alternate diagnosis

NOTE: There will be no more contact tracing. Students will be allowed to remain at school if they were exposed to a positive COVID person as long as they meet the above criteria.
